**We have an urgent, moral responsibility to save the lives of those being bombed and denied food, water, fuel, and electricity. Too many innocent Palestinians and Israelis have been killed. All parties must respect international humanitarian law. Release all hostages!**

66% of all likely voters say the US should call for a ceasefire and de-escalation of violence in Gaza.

**The US should get the Israeli Government, Palestinian Authority, and leaders of Egypt, Jordan, and Saudi Arabia together to problem-solve. How about a 5-year plan starting with a ceasefire?**

**War Spending**

- In just the last year, spending on Ukraine alone is close to \$100 billion US taxpayer dollars. Who benefits? The booming US defense industry. Companies like Lockheed Martin and Raytheon have seen stock prices skyrocket since the war began. Who pays? Working-class and poor people who suffer more each day.
- The US spends more on national defense (war) than China, India, Russia, United Kingdom, Saudi Arabia, Germany, France, Japan, and South Korea — combined.
- **Nuclear Arsenal spending: US \$44.2 billion Russia \$8.6 billion** The White House plans to increase ‘national security’ spending to a mind-blowing \$813.3 billion for the next fiscal year. What exactly is the “free world” that politicians claim depends on the US military? Americans continue to struggle with food insecurity and lack proper medical care, calling the “freedom” of US society into question.
